EFFORTS TO REDUCE RACIAL, ETHNIC, AND ECONOMIC ISOLATION

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

Edwin O. Smith High School continues its involvement in programs that expand our interactions with students from varying backgrounds. Students and staff participated in the following programs: E.O. Smith has foreign exchange programs that provide our students and those from our sister schools, with a variety of opportunities to visit each other, practice their language skills, develop an understnding of different cultural practices and celebrate our differences. In addition, E.O. Smith is participating in a Fulbright teacher exchange with France and has agreed to host two teachers from Germany as part of a pilot training program for prospective teachers in Germany. E.O. Smith students and staff continue to support a non-profit organization for clean water in Haiti called Roots of Development through charitable donations and volunteer trips. Locally, E.O. Smith has an active Connecticut Youth Forum group and hosted an activity this past spring. Guest speakers including political leaders representing different race and ethnic groups on a local and international scale presented their perspectives on political conditions, race relations and socio-economic climates in their native countries to students during the 2009-2010 school year. E.O. Smith has an extensive new student transition programs that involves our Peer Natural Helper and Student Congress programs. Both groups receive training on a weekend retreat that involves team building training centered on becoming peer leaders and model our five core values of respect, responsibility, integrity, achievement and community. The transition program begins in February of the 8th grade year and extends through January of the 9th grade year and includes a parent mentor component as well.

Accommodations for a student's disability may be made to allow him or her to participate in testing. Students whose disabilities prevent them from taking the test even with accommodations are assessed by means of a list of skills aligned to the same content and grade level standards as the CMT and CAPT.

Federal law requires that students with disabilities be educated with their non-disabled peers as much as is appropriate. Placement in separate educational facilities tends to reduce the chances of students with disabilities interacting with non-disabled peers, and of receiving the same education.

SCHOOL DISTRICT IMPROVEMENT PLANS AND ACTIVITIES

The following narrative was submitted by this district.

The district continues to expand its intervention programs to assist students who require academic and behavioral intervention. A credit recovery program was adopted by the board of education to provide an alternative for students to recover credit lost as a result of exceding the limits of the Region #19 attendance policy. In addition, on line curricular options were added for students in need of additional credit. The E.O. Smith High School Foundation continues to host community events and provide scholarships in support of teaching and learning activities and programs. Overall CAPT scores increased in sub categories from 2008-09 and the district met requirements in achieving adequate yearly progress as defined by state and federal agencies. In preparation for the March 2011 NEASC visit the E.O. Smith faculty participated in the self-study phase in the process and is anticipating providing a full report to the commission in January 2011. The board of education held a referendum for the improvement of its outdoor physical education and athletic facilities on September 28, 2010.
